

PAUSE TO RESET

RESEARCH-BASED INSIGHTS FOR A HAPPIER, LESS STRESSFUL AND MORE PRODUCTIVE WORK-FROM-HOME EXPERIENCE

Whilst some of us have settled into remote working, or are now in hybrid-remote mode, there are some clear challenges to working away from the office. These include **social** and **professional isolation**, fewer opportunities for **collaboration**, a **blurring** of **boundaries** between work and personal life and that **fridge** is just so alluring....!

Introducing "Pause to Reset", a 2-hour targeted webinar, designed to enhance your **remote working skillset**. Delivered in an interactive, visual and immersive manner, using a range of techniques (polling, break-out rooms, chat-box conversations and activities) to drive engagement, retention and adoption of concrete behaviours to improve your work-from-home-experience.

Designed and delivered by the highly experienced **Khyati Kapai**, founder of **Yzer Solutions**. With close to two decades of coaching, training and public speaking experience, and skilled in delivering virtual / online events, you can be assured that this event will land beautifully with your team.

Share and learn from others, refuel and RESET.

What past participants say:

"Revealing, Engaging, Evolving". "Great meeting!! great organizer!"
"Professional and engaging". "Thanks a lot for your sharing, it is inspiring!"
